

I'm having trouble registering my copy of Traktor DJ Hercules. How can you help?

First, make sure to consult the document available from our support site regarding the registration process of Traktor DJ Hercules:

ftp://ftp.hercules.com/sound/manuals/DJConsole/Registration_Traktor_info.pdf

As the registration process of Traktor is entirely done by Native Instruments, Hercules technical support agents are not able to provide any help regarding the following issues:

- Lost of serial numbers
- Website registration problem
- Delay in reception of registration information

Regarding these problems, please use the form available from the following address to contact Native Instruments directly:

http://www.nativeinstruments.de/index.php?regsuppfrm_us
