

Information for DJ Console MK2 users of Traktor® 3 LE

Native Instruments has released a new version of Traktor 3 LE, version 3.3.2 LE, which owners of licenses can download from

<http://www.native-instruments.com/index.php?id=updates>

- If you want to update from a previous Traktor 3 LE versions (v3.0 or v3.3) to Traktor 3.3.2 LE, you must:

- 1) Delete the file **Traktor3 LE Settings.xml** from your hard disk before updating Traktor 3.3.2 LE,
- 2) Update your DJ Console MK2 drivers to the latest release (currently 5.18 for Mac OS® or 2008_HDJS_1 for Windows®).

Otherwise, Traktor 3.3.2 LE will not detect your DJ Console MK2.

- If you have already updated Traktor LE to Traktor 3.3.2 LE without deleting this file, you must

- 1) delete the file **Traktor3 LE Settings.xml** from your hard disk
- 2) Launch the installation of Traktor 3.3.2 LE again.
- 3) Update your DJ Console MK2 drivers to the latest release (5.18 for Mac OS® or drivers 2008_HDJS_1 for Windows®).

- If you have installed Traktor 3.3.2 LE on your computer without having a previous release installed, and have installed the latest driver, there is no problem to detect DJ Console MK2.
